

Shani Haker

B.Sc. Software Engineering Graduate | Mobile Developer

Phone Number : 052-4636199 | Email : shanihaker98@gmail.com | [LinkedIn Link](#) | [GitHub Link](#)

Summary

Software Engineering B.Sc. graduate with a major in Mobile Development and practical experience in Android and iOS application development. Experienced in building end-to-end mobile applications, integrating backend services, and working with databases and cloud-based solutions. Highly motivated, detail-oriented, and eager to learn.

Projects:

EasyFill – AI-Powered Accessible Form-Filling Application | Final Project

- Developed an end-to-end **Android application** assisting users coping with PTSD in completing complex bureaucratic forms through intelligent form filling and adaptive accessibility support.
- Integrated **Azure AI Document Intelligence** through **Google Cloud Run** for PDF data extraction and automatic form completion using regex-based mapping and normalization.
- Developed a **multimodal distress-detection system** combining voice, **MediaPipe** facial indicators, motion sensors, and user interaction to provide adaptive accessibility recommendations and personalized assistance.

Currency Exchange SDK & Android App | Advanced Mobile Technologies Seminar

Developed and published a reusable Android currency exchange SDK with a companion application, supporting live currency conversion, favorites, and conversion history through a REST API.

PawTrack - iOS Dog Activity Tracking App

Developed an iOS application for managing dog profiles and tracking daily activities, featuring authentication, activity history, filtering, image management, and persistent appearance preferences.

Pawfect Match - Android Dog Adoption App

Developed an Android dog adoption application featuring dog browsing and filtering, user authentication, favorites, personalized feeds, profile management, and real-time data updates.

Technical skills

Programming Languages: Kotlin, Java, Swift, JavaScript, TypeScript, Python, SQL, Assembly

Mobile Development: Android, Jetpack Compose, XML, Kotlin Coroutines, iOS, UIKit, Auto Layout, MVVM

Web & Backend: Next.js, Node.js, Express.js, Flask, REST APIs

Databases: PostgreSQL, MySQL, MongoDB, Firebase Firestore, Firebase Realtime Database

Cloud & Services: Firebase Authentication, Firebase Storage, Microsoft Azure, Azure AI Document Intelligence, Google Cloud Run, Google Speech-to-Text, Google Text-to-Speech

Tools & Technologies: Git, GitHub, Docker, Linux, MediaPipe, Retrofit, OkHttp, JitPack, Railway, Xcode

Education

B.Sc. in Software Engineering, 2026 - Afeka Academic College of Engineering | **Major:** Mobile Development

Relevant Coursework: Mobile Applications Development - Android (86), User Interface Security & Privacy - Advanced Android Development (98), iOS Development (90), Advanced Seminar in Mobile Technologies (95), Web Platforms Development (93), Artificial Intelligence for Game Development (97).

Work Experience

Website Management & Client Support | Pinto Ventures | 2020-2022

Managed company websites using WordPress and Elementor and provided English-language support and content for international clients.

Military Service

Data Analyst | Unit 8200, Israeli Intelligence Corps | 2017-2020

Served in a classified intelligence role focused on intelligence gathering and data analysis.

Languages:

Hebrew - Native | English - Fluent, with professional experience working with international clients.
